No cost for contract facilities and club members

***Please email a copy of your hospital ID badge to Confirmations@FlexEd.com*

This course will discuss why arterial blood gases (ABG) are used as a diagnostic tool. The course will introduce indications, contradictions and methods so that accurate results are obtained. In addition this course will provide a step by step approach for blood gas analysis, and recognition of abnormalities. Lastly, the course will incorporate patient scenarios to practice applying knowledge in a clinical situation.

Students who arrive after the 15 minute grace period will NOT be allowed to attend the course.

Approved to Award 4.0 CE(s) through ANCC, CA-BRN, CA BVNPT, NV-BRN
